

BS: FINANCIAL FRAUD AND FRAUD INVESTIGATION

Offered in partnership with the Department of Economics, Finance, and Accounting (<https://catalog.fhsu.edu/business-entrepreneurship/economics-finance-accounting/financial-fraud-and-fraud-investigation-bs/>)

The Bachelor of Science in Financial Forensics and Fraud Investigation offered by the Department of Economics, Finance and Accounting (<https://catalog.fhsu.edu/business-entrepreneurship/economics-finance-accounting/>) in partnership with the Department of Criminal Justice (p. 1) equips students with entry-level skills in financial forensics and fraud investigation, along with foundational knowledge of financial processes and the criminal justice system. Given the multidisciplinary nature of the field, the program includes Financial and Criminal Justice coursework and electives, along with a significant number of free electives. This structure allows students to tailor their education toward specific interests such as accounting, finance, economics, management, computer forensics, data analytics, or software development. It also supports preparation for criminal justice-related careers such as fraud investigator, forensic financial analyst, compliance officer, or white-collar crime analyst. Additionally, the program pairs well with certificates, minors, or second degrees to enhance specialized career pathways.

Program Learning Outcomes:

1. Evaluate the design, implementation, and control of the accounting information systems to support decision-making, ensure data integrity, and enhance organizational efficiency.
2. Analyze and interpret financial statements to assess a company's profitability, liquidity, solvency, earnings quality and overall financial health.
3. Apply crime causation theory to fact patterns, scenarios and evidential material as it relates to potentially fraudulent situations, analyze fraud acts and recommend procedures to reduce the risk of fraud.
4. Describe techniques necessary to conduct effective interviews and interrogations, interpret behavioral and other environmental indicators of deception.
5. Analyze and discuss the impact of the legal and regulatory environment on perpetrators, witnesses, organization and fraud professionals, given particular fact patterns and case examples.

Program Summary

Code	Title	Hours
	General Education	34
	Financial Core	24
	Directed Electives	6
	Criminal Justice Core	23
	Directed Electives	6
	Open Electives ¹	27
	Total Hours	120

¹ Open electives are the credit hours required to reach a minimum of 120 total hours and 45 upper division hours. The number listed assumes all courses are completed at FHSU as listed. This number may vary if students transfer courses, or have individual substitutions allowed.

Students should speak with their advisor if either situation applies to determine if the number will vary, and to ensure they enroll in a minimum of 45 upper division hours.

Students entering within 1 year of high school graduation will take UNIV 101 Freshman Seminar and may apply that hour in the open elective category.

Program Requirements

General Education

All undergraduate degrees require completion of the Kansas Systemwide General Education (<https://catalog.fhsu.edu/general-education/>).

Courses identified with ^{GE} on this page may satisfy a general education requirement in addition to the identified degree requirement. Students who apply a degree requirement to satisfy a general education requirement will typically add an equal number of hours to the university elective category. This flexibility may allow you to complete a minor or certificate within the 120 hour degree. Transfer students are especially encouraged to select these courses in completing General Education requirements to maximize the likelihood of completing the degree with 120 credit hours.

Code	Title	Hours
	General Education	34-35

Effective in Fall 2025 the math pathway course (<https://catalog.fhsu.edu/general-education/gateway-courses/>) identified below is required for this degree.

The General Education Math Pathways course identified for this major is **MATH 250 Elements of Statistics**. All students pursuing this degree program will be required to complete this course or the corequisite support course. Students who place into a higher level math course may be able to satisfy this requirement; consult with your Academic Advisor for additional information.

Placement measures for **MATH 250 Elements of Statistics** include:

- Math ACT: 19 or higher OR
- Math SAT: 510 or higher OR
- ALEKS PPL: 30 or higher OR
- Accuplacer QAS: 255 or higher OR
- HS GPA and Course Grade: 3.00 cumulative GPA (unweighted) and C- or higher in Second Semester Algebra 2 or Integrated Math 3 OR
- Institutional Measure

Students who do not meet any of the placement measures listed above will need to register for the corequisite support course: **MATH 245 Elements of Statistics with Review**. Credit for the corequisite support course will satisfy any requirement for the pathway course listed above.

Code	Title	Hours
	Financial	
	Program (Major) Core
