

AGRICULTURE | MASTER OF BUSINESS ADMINISTRATION (AGRIBUSINESS)

Agriculture is one of the most important, fastest-moving, and high-tech industries in the world today. This concentration was developed to provide agricultural professionals with strategies for informed decision-making within an engaging and dynamic environment. Students will learn and apply a portfolio of skills that include individual and group leadership in an organization, risk-management strategies, and strategic, value-chain analysis. The interface between the technical and biological nature of agricultural sciences, economics, management, and marketing strategies sets this concentration apart.
