Certificates in Geosciences

The Department of Geosciences at Fort Hays State University offers specialized department certificates which can be obtained on campus or online.

- on-campus (GIS User (<https://www.fhsu.edu/geo/academic-programs/geocertificates/#gisuser>) & Museum Studies (<https://www.fhsu.edu/geo/academic-programs/geocertificates/#museumstudies>))
- FHSU Online (GIS User (<https://www.fhsu.edu/geo/academic-programs/geocertificates/#gisuser>))

Students do not have to major in Geosciences to pursue a certificate. These certificates and related courses can add value to your current degree program and can enhance or develop additional skills to support your career goals.

The Department of Geosciences also is part of 2 cooperative certificates.

- Certificate in Crime Mapping and Analysis (<https://www.fhsu.edu/geo/academic-programs/geocertificates/#crimemapping>) - A cooperative dual certificate with the Department of Criminal Justice.
- Sustainability Certificate (<https://www.fhsu.edu/sustainability/sustainability-certificate/>) - Geosciences hosts this interdisciplinary certificate aimed at providing a foundation in sustainability theory.

Please review the requirements and certificate request process carefully.
