

WERTH COLLEGE OF SCIENCE, TECHNOLOGY AND MATHEMATICS

Each department offers major and minor academic programs in various specializations, and most offer certificates as well. Additionally, the Biology and Geosciences departments offer MS graduate degrees with thesis and non-thesis options. Our academic programs are innovative and our facilities are state of the art. College of Science, Technology and Mathematics teachers embrace a one-on-one teaching and mentoring philosophy and provide robust research opportunities for our students.

Our faculty not only love to teach, but they are also diverse, nationally, and internationally known researchers. Housed in a single, unified college, these professors and the departments they represent explore endless interdisciplinary possibilities.
